SSI Rescue diver course

Location

Situated between Cancun and Tulum on the Mayan Riviera, Playa, as locals call it, has grown to be the most frequented vacation destination in Mexico. You'll find miles of white sandy beaches and turquoise waters of the Caribbean Sea to the east, while lush green jungle parallels the town to the west. Here, beach bumming and visiting ancient Mayan ruins is almost as popular as the legendary nightlife.

Accommodation in Playa del Carmen

Finding accommodation that offers a relaxed atmosphere can be difficult, since the town and many hotel bars comes ALIVE at night. Since you will be diving, and therefore need your rest at night, you will be checking in at your very own quiet apartment. Within a mere 100 meters you will find the dive center, the beach and the main street where cafes and bars are only outnumbered by little art shops and Mexican market stands.

Your apartment in Playa Del Carmen

Your apartment is one out of 6 apartments that is rented out to divers at the dive center. With a little kitchen and living room area, you can cook meals and relax in a quiet atmosphere whenever needed. The apartment has Aircon, wifi and hot shower. The bedroom comes with a twin or double bed and fits 2 people comfortably.

Introduction to course

The Diver Stress & Rescue Course is a pivotal step in expanding a diver's knowledge and experience. Rescue divers learn to look beyond themselves to consider the safety and well-being of other divers.

Speak to any Dive Professional and they'll tell you that the Rescue Diver course marked the changing point in their diving capabilities. It is a confidence boosting course! Rescue divers are characteristically in control, calm, safe and caring divers. The Diver Stress & Rescue Course is full of challenges and hands on learning experiences - it's also a lot of fun! The course involves learning in-water rescue skills which are then tried and tested in Open water Rescue scenarios/dives. The Rescue Diver Course does involve reading the Rescue Diver Manual (online), academic sessions with your Instructor and a multiple choice written exam at the end.

To be certified as an SSI Rescue Diver you must be certified by an internationally recognized organization in First Aid within the last 2 years or concurrently enroll in our Emergency First Response course.

The EFR Course can be booked as a supplement to this course.

Itinerary

After you've checked in, you will be introduced to your instructor who will explain you what you will be doing during your course. Courses are strictly following all the SSI standards, but can and will be conducted to fit your performance and the weather conditions. But roughly, your first day will consist of confined water skills and class work, equipping you with basic skills such as assisting a panicking diver, surfacing an unconscious diver, and out of air drills. In the classroom you will learn how to quickly identify stress in divers and how to minimise the risks associated with differing diving conditions. The second, third and forth day are spent on the boat or shore simulating emergencies, conducting searches, and learning how best to manage the human resources available, as well as learning how to administer oxygen, and in-water artificial ventilation techniques. Be prepared for unexpected rescue scenarios! Day five will be spent on land with theory and the final exam. Remember no diving 24 hours before flying.

Day 1 - Arrive and check in - Afternoon & Evening Theory

Day 2 - Theory & Confined & Open Water Training

Day 3 - Confined and Open Water Training

Day 4 - Confined and Open Water Training

Day 5 - Theory & Final Exam. Relaxing on land - no diving before flying - Check out if no extra day is booked

We recommend that you add extra days of fundiving. We believe you would want to have as much time as possible on the reefs and in the cenotes - now you are all the way out here! Don't forget to add extra nights if you book extra diving.

Transfer Information from Cancun airport:

Taxi - Grab an authorized airport taxi. It's a 45 minute ride to Playa del Carmen. A union controls who are allowed to carry tourists from the airport and what they charge. Taxis originating in Playa del Carmen are not actually authorized to take people to Playa, but you may end up with a driver that doesn't find his way around Playa very well.

Colectivo - A colectivo is (usually) a van that will take up to 10 people. They don't leave at any specific time, but you will have to wait until it's full enough to justify the trip. You may have to make stops at other resorts and hotels along the way, which can easily double the time it will take you to get to Playa del Carmen. To take one of these authorized taxis, go to any of the TTC kiosks located around the terminal and buy a ticket, or just step out of the arrival hall and you will get many offers.

Direct bus - Mexican bus company Riviera operates a direct bus service between Cancun airport and Playa del Carmen. Tickets are 65 pesos (about 7 usd) each way, either way. It leaves from outside the main arrival hall at the airport. Just before you exit the terminal, there is a Riviera counter where you buy the ticket. In Playa del Carmen the bus works out of the main bus terminal on 5th Avenue and Juarez.

When you arrive at the bus station in Playa, there will be many taxis to take you to the hotel.

You need to let the dive center know your arrival at least one week in advance. You will find the details for the dive center on your voucher.

In this event the dive center or Blue Venture is not obliged to give a refund.
