

Pacific Harbour, Viti Levu, Fiji Diving with sharks

The Diving

The diving in Pacific Harbour is everything that you dream about when you think of a Pacific Island... A beach full of shading palm trees, clear blue water and reefs that makes you feel like you are in an aquarium... But that is far from all this place has to offer! Hidden below the calm waters is a high-octane adrenalin-pumping dive site that will literally take your breath away... "The Bistro", arguably one of the finest shark dives in the world, takes you right in to the feeding frenzy of some of the biggest predatory sharks in the ocean. Under very safe and controlled conditions, you will experience a shark feeding beyond your wildest dreams. You will be sure that all misunderstandings of this amazing creature will be out ruled after this dive. You will be diving with the absolute pioneer who was the very first to start feeding the sharks with the sole purpose of education of recreational divers.

The shark dive is only done 4 times a week, with two dives per day. The rest of the week dives will be done on the surrounding reefs, not a bad alternative. The corals are absolutely phenomenal.

Pacific Harbour, Viti Levu, Fiji Diving with sharks

Location

Pacific Harbour is located on the picturesque Queen's Highway that follows the south coast of the main Fijian island of Viti Levu. With Nadi 2 hours west and Suva 45 min east it is easily accessible but manages to slide under the radar of the package tourism hordes that can ruin a destination. The locals are friendly and welcoming, the water's clear and warm and the atmosphere is definitely set to "island time"

Your resort

For this destination we have hand-picked the laid-back riverside boutique resort Club Oceanus. The only stress here is deciding which of the delicious meals to order each evening to restock your energy for the next shark dive. With only ten rooms, you'll be on first name terms with the staff and other guests within hours of arriving and you'll be genuinely sorry to leave your new friends behind on departure. If you want a beachresort, we recommend that you upgrade to Uprising Beach Resort during booking. That too has a fantastic atmosphere!

Your room

The big 24 bed dorm room. With air-conditioning, en-suite bathroom and a full kitchen for self-caterers.

Twin: If you want more privacy, we recommend that you upgrade on the accommodation to a twin room with ensuite bathroom, air-conditioning and kitchenette.

Pacific Harbour, Viti Levu, Fiji
Diving with sharks

This is only a selection of the many dive sites represented on this particular destination. The diving is dictated by the safeness of the environment.

THE shark dive

Although its correct name is "The Bistro", other travellers and indeed the locals have only one question for you: Hey mate, so have you done the Shark Dive yet?! The site is a 15 min ride from our dive center's private pier on their fast, spacious, aluminum-hulled boat. On arrival at the site, divers descend along a line to a set depth (approximately 18m). As you descend, already there will be schooling 1m Giant Trevally and nurse sharks.

Once the divers are in position the highly professional crew (1 per 2 divers) start the feeding and suddenly the calm water is a thrashing washing machine of sharky action. To be expected are bulls, silvertips, grey reefs, lemons and nurses and these ain't no juveniles, some bullsharks are well over 3m long with waistlines to match... all 3-5m from your awe-struck eyes! Undoubtedly the highlight are the regular visits of tiger sharks. Watch as the fishy mass parts like the Red Sea if one of these 3-4m beasts appears! And no, you will not be scared, you will feel your pulse and your breathing rate go up, for sure, but you will be a spectator in this controlled game, it is cool and safe. You will feel the same. If you're a diver, don't come to Fiji and miss out on this dive. You WILL regret it.

Caesars Rock

Caesars rock is an incredible hard coral garden, with the most well preserved corals seen in a very long time. The site is shallow and chilled, you drift along big coral bommies overgrown with massive staghorn and table corals. The occasional whitetip or blacktip shark will pass but mainly this site is relaxing and an extremely good place to spend your time between the shark dives.

If you do not have too much experience or have been out of the water for a while, a few dives on the surrounding reefs will easily prepare you for the real action.
