

Dhangethi Island, Maldives Advanced Course in Dhangethi Island

The Diving

Dangling like a string of pearls below the Indian subcontinent, the Maldives has long been the picture-perfect fantasy of tropical island holidays. With only lush islands on the horizon for hundreds of miles, the crystal-clear waters of the Indian Ocean are a paradise for water lovers.

What truly sets the Maldives apart from other destinations is its incredible abundance of marine life. Thanks to strict sustainable fishing policies, the ecosystems remain intact, and the reefs are healthy and **absolutely stunning**.

Rasdhoo is ideally located within easy reach of some of the region's most legendary dive sites, where an astonishing variety of sea creatures gives you the feeling of swimming through a living aquarium. It's genuinely breathtaking.

Together with your instructor, you'll begin slowly from the beach, learning essential skills in the calm, shallow water before gradually progressing through the course and out onto the reef. It doesn't get much more unspoiled than this - and we truly believe it's an extraordinary place to earn your diving license.

Introduction to course

The RAID Explorer 30 (advanced) course will get you even more comfortable in the water by simply completing five adventure dives under the supervision of a RAID Instructor. If you're looking to build your confidence and gain more experience, this is the natural next step on the diving ladder.

The course is designed, so you can go straight into it after the Open Water Diver course. The RAID Explorer 30 (Advance) course helps you increase your confidence and build your diving skills so you can become more comfortable in the water. This is a great way to get more dives under your belt, whilst continuing to learn under the supervision of your RAID instructor. This course builds on what you've learned and develops new capabilities by introducing you to new activities and new ways to have fun diving.

You'll increase your skills by completing 5 adventure dives, with 3 dives that are mandatory. They will introduce you to:

Underwater Navigation

Deep Diving (typically anywhere from 18-30 meters)

Buoyancy Dive (will work on your trim, weight and position in the water)

For the final two dives, you and your instructor will choose from different types of Adventure Dives to complete your course. You can combine your own course choosing between special dives offered on the location, like for example Digital Underwater Photography, Wreck Diving, Night Diving, Diving with Underwater Scooters and much more.

Best part about the Explorer 30 (Advanced) course is: There is NO exam! Just lots of good diving and you becoming a better diver!
